BRIDGETOWN INTERNATIONAL UNIVERSITY, SCHOOL OF MEDICINE

THE WORLD NEEDS MORE DOCTORS

WE SEE ONE IN YOU!

We deliver medical education to aspiring doctors who are passionate in changing the world of healthcare, for good

BRIDGETOWN INTERNATIONAL UNIVERSITY

Bridgetown International University (BIU) School of Medicine is a well-recognized and one of the fastest-growing private medical universities located in Bridgetown, Barbados, a Caribbean English-speaking island country.

MISSION

Bridgetown International University aims at identifying the potential of all students and offering superior quality medical and other health-related education. It will redefine the scope of medicine in the development of the world by developing its core competencies. It will further teach and practice a model of medical education with the ultimate objective of emerging as a transformational agent in the world of health care.

VISION

Bridgetown International University holds a vision of making the institution emerge as one of the leading universities in the field of medical education, training and research. It will be well focused on enhancing new dimensions in the field of health and medicine. It commits itself to highest quality medical knowledge, skills and competencies and to providing maximum exposure to the future doctors of the world.

BRIDGETOWN INTERNATIONAL UNIVERSITY SCHOOL OF MEDICINE

EDUCATIONAL PROGRAMS

TWO PATHWAYS TO MD DEGREE

5.5-YR MD PROGRAM

The 5.5-year program begins with a basic science-enriched college-level PreMedical curriculum that is 1.5 years in length. Students who complete this phase are promoted to the Basic Sciences phase of our medical curriculum where they are taught essential foundational knowledge, critical thinking and communication skills, and are introduced to medical ethics, clinical skills and patient-doctor relations.

4-YR MD PROGRAM

Qualified students may begin at the Basic Sciences phase for the 4-year program which follows international standards and a US-based curriculum designed for students to prepare for and pass the USMLE, FMGE, CAMC and PLAB licensing exams.

The program is completed in two stages:
2-Year Basic Sciences Phase – integrates the in-depth study of medicine with research, laboratory experiments, problem-based learning, and evidence-based practice of medicine. **2-Year Clinical Sciences Phase –** offers an opportunity to receive hands-on clinical training at University-affiliated hospitals in the different regions of the world, including the US and India.

UNIVERSITY FEES

- Auxiliary fee **$5,000 USD**
- 1.5-Yr Pre-Medical (4 semesters) **$3,335 USD** (per semester)
- 2-Yr Basic Sciences (6 semesters) **$3,335 USD** (per semester)
- 2-Yr Clinical Sciences - Clinical rotation fee depends on clinical site
- Health insurance **$600 USD** (per year)
- Accommodation **$250 USD** and above (per month) based on occupancy
